“A CRIME THRILLER DESIGNED TO KEEP AUDIENCES GUESSING...” — ACTOR RAGHAV OPENS UP ABOUT BEEP!

Chennai, 13 Sep

2026: Actor Raghav,

we hear a ‘beep’. In that sense, the title can represent the unsaid and the unheard — the voices and truths that have been deliberately cut off.”

“We have touched upon many things that are generally not spoken about. It is essentially a crime thriller designed to play with — and challenge — the expectations of the audience,” he said.

Directed by Il. Shanmuga Sundar, BEEP is a crime thriller that promises an intriguing experience for audiences.

With the film set to hit screens soon, Raghav opened up about the concept of the film, his character, the challenges he faced during filming and his aspirations as an actor.

Speaking about the title BEEP, Raghav said:

« “ Whenever something is cut out because it is not meant to be heard or spoken,

have explored what a ‘superpower’ would actually look like if it existed in a normal, real-life world.”

Speaking about the kind of roles he wants to explore in the future, Raghav said he is drawn towards characters that challenge him.

“If a role comes to me and feels like something I can easily do without any challenge, where is the excitement? I am interested in characters that make me feel confident enough to attempt them, while also creating a small doubt within me — ‘Can I really pull this off?’ That is what makes a role exciting for me.”
