

MONSOON CLAIM 14 LIVES IN TN. CM VIJAY REVIEWS CHEMBARAMBAKKAM RESERVOIR, ORDERS RELIEF OPERATIONS IN RAIN-HIT DISTRICTS. 3,500 ACRES OF CROPS INUNDATED IN NAGAPATTINAM

Chennai, 27 Oct

2026: As the northeast monsoon intensifies across Tamil Nadu, 14 people have died in thunder and lightning-related incidents, Revenue Minister K.A. Sengottaiyan said on Monday. Meanwhile, Chief Minister C. Joseph Vijay visited Chembarambakkam reservoir on Monday afternoon to review water storage, inflows and discharge levels amid the possibility of further heavy rainfall.

Tiruppur districts led to waterlogging in several areas. However, the accumulated rainwater was cleared by early Monday morning, restoring normalcy, the Minister said.

The administration had taken immediate steps to drain stagnant water and minimise inconvenience to residents. Warning of the possibility of sudden spells of intense rainfall in parts of the Western Ghats, the situation is

position and preparedness for increased inflows during the northeast monsoon. As of 6 a.m. on Monday, the reservoir's water level stood at 14.76 feet against its full reservoir level of 24 feet. Its storage was 1.488 thousand million cubic feet (TMC), against a total capacity of 3.645 TMC, accounting for approximately 41% of its capacity.

The reservoir was receiving inflows of 150 cusecs on October 26, while 200 cusecs were

focused on the preparedness of reservoir bunds, sluice gates and flood-protection infrastructure to handle heavy rainfall and prevent flooding in downstream areas. Reservoir storage improves.

Fresh monsoon inflows have improved water storage across Chennai's major reservoirs. As of 6 a.m. on October 26, the combined storage in six major water sources

The State Government has provided relief assistance to the families of those killed in lightning-related incidents, the Minister said. The State Government has been closely monitored. Mean while, approximately 3,500 acres of agricultural crops have been inundated in Nagapattinam district following cusecs was being discharged, primarily to meet Chennai's drinking-water requirements. A smaller quantity is also supplied for industrial and irrigation reservoir levels, 5.725 TMC, or 43.3% of their total capacity of 13.222 TMC. With the northeast monsoon gaining momentum, authorities are monitoring

SOUTH AFRICAN TOURISM WORKS CLOSELY WITH INDIAN TRAVEL TRADE TO SIMPLIFY SOUTH AFRICA’S NEW ETA PROCESS

Chennai, 27 Oct 2026: South African Tourism is strengthening its engagement with the Indian travel trade to build awareness and understanding of South Africa’s new Electronic Travel Authorisation (ETA) process, supporting trade partners in guiding eligible Indian travellers through the digital system.

The digital process enables travellers to complete key travel authorisation formalities online, reducing paper work and streamlining the pre-travel journey. The ETA is designed to facilitate faster processing, with authorisation highlighted as being available within 48 hours. As part of these efforts, South African Tourism conducted its first digital ETA workshop for the Pune travel trade on 22 September 2026, in collaboration with South Africa’s Department of Home Affairs (DHA).

Through stakeholder interactions and knowledge-sharing initiatives, the organisation is working to familiarise the trade with the process, address queries and facilitate a smoother pre-travel experience for visitors to South Africa.

The introduction of the ETA marks an important step towards making travel to South Africa simpler and more convenient for eligible Indian travellers.

The session brought together 65 trade partners and provided an opportunity to introduce the new process, walk participants through the application journey and address practical queries around timelines, child applications, group handling and other aspects of the system. The engagement also enabled travel partners to gain greater clarity on the process and better prepare to guide their clients.

Neliswa Nkani, Acting Hub Head, South African Tourism, said, “Our travel trade partners play an important role in helping Indian travellers discover South Africa, and it is important that

they have the clarity and confidence to guide their clients through new processes such as the ETA.

Engaging directly with our partners allows us to address their questions, understand their needs and help them navigate these developments.

We remain committed to working closely with the trade to build awareness of the ETA and support a smoother travel experience for eligible Indian travellers to South Africa.”
