Public Sector Banks (PSBs) continue strong financial performance in first half of FY2026-27

CHENNAI – 19 Nov, 2026 The sustained improvement in financial health across different financial parameters, including, inter alia, capital adequacy, business growth, low slippages, healthy asset quality and outstandingly improved profitability, establishes the complete turnaround in overall functioning of Public Sector Banks (PSBs). It shows that PSBs are not only making profit but also meeting the requirements of credit supply need with improved underwriting capabilities, aided by technology and higher governance standards.

PSBs' aggregate net profit reached ₹1.10 lakh crore with 16.9% y-o-y growth and aggregate operating profit reached ₹1.81 lakh crore with 13.9% y-o-y growth. Return on assets of PSBs continue to improve, reaching 1.11% with y-o-y improvement of 3bps. The continued improvement in profitability in both net and operating profit for the fifth consecutive year shows fruitful outcome of enablement of deeply engaged reforms drive and establishment of better governance standards by the Government.
