Tata Motors registered 27% growth YoY with total sales of 47,652 commercial vehicle units in October 2026

CHENNAI – 3 Nov, 2026 Tata Motors Limited sales in the domestic & international markets for October 2026 stood at 47,652 units, compared to 37,530 units during October 2025, up 27% YoY.

Tata Motors Limited registered a stellar performance in October 2026, achieving a 27% Year-on-Year (YoY) growth with total sales reaching 47,652 commercial vehicle units across domestic and international markets. According to the company's sales report released from Chennai on November 1, 2026, this volume marks a significant increase from the 37,530 units sold during October 2025.

The growth was visible across all primary vehicle categories, driven by steady domestic demand and an exponential surge in exports. In the domestic truck segments, Heavy Commercial Vehicle (HCV) trucks led by volume with 12,030 units compared to 10,737 units last year, marking a 12% increase. Intermediate, Light, and Medium Commercial Vehicle (ILMCV) trucks followed closely with 17% growth, moving 7,213 units against 6,169 units in October 2025. The Small Commercial Vehicle (SCV) cargo and pickup segment remained the highest domestic contributor by volume, growing 11% to 16,715 units from 15,018 units in the previous year. Passenger Carriers also saw robust traction, posturing a 20% growth rate with sales rising to 3,826 units from 3,184 units.

Cumulatively, the total Commercial Vehicle (CV) domestic sales for the month stood at 39,784 units, a 13% increase over the 35,108 units recorded in October 2025. Within these domestic numbers, combined Medium, Heavy, and Intermediate Commercial Vehicle (MH&ICV) sales accounted for 19,263 units, up 16% from the 16,624 units sold in the corresponding month last year.

The most dramatic growth driver for the month came from Tata Motors' International Business, which skyrocketed by 225%. Exports jumped to 7,868 units in October 2026 from just 2,422 units in October 2025. When accounting for both domestic and international shipments, global MH&ICV sales grew to 20,712 units, reflecting a solid 16% YoY increase compared to the 17,827 units managed in the same period last year.
