BRE Summit and Expo 2026 Brings Global Investors and Industry Leaders Together

CHENNAI – 5 Nov, 2026 On the second day of the Bharat Renewable Energy Summit and Expo 2026, Union Minister of New and Renewable Energy Pralhad Joshi, Union Minister of Power and Housing and Urban Affairs Manohar Lal Khattar and Minister of State for New and Renewable Energy and Power Shripad Yesso Naik participated in “The Next Terawatt” ministerial plenary, a high-level dialogue convened by the International Solar Alliance, CEEW and Energiva Ventures. The plenary brought together senior government and industry voices to map the international renewable energy implementation architecture for the decades ahead.

The discussions deliberated on four key priority areas critical to accelerating the next phase of global renewable energy expansion: integrated energy planning, supply and storage; energy infrastructure expansion and resilience; terawatt-scale financing of projects and ecosystems; and digitalisation and AI for secure and affordable energy. The discussions outlined a strategic roadmap from now to 2050, aligned with India’s vision of Viksit Bharat by 2047.
