HP introduces OmniBook 5 and ProBook 4 G2iS to power learning and enterprise productivity

CHENNAI – 5 Nov, 2026 HP India today announced the launch of the HP OmniBook 5, designed to support students in their academic and creative pursuits, and the HP ProBook 4 G2iS, designed to meet the evolving needs of India's growing businesses and mobile professionals. With a focus on performance, portability and AI-ready experiences, the new devices are built for increasingly flexible ways of learning and working.

"As India's students and businesses become more digitally connected, their expectations from technology are also evolving. Students need technology that can keep pace with learning as well as creativity, while growing businesses need dependable, secure PCs that can support productivity as they scale. With the HP OmniBook 5 and HP ProBook 4 G2iS, we are bringing purposeful computing experiences to these distinct communities, designed around how they learn, create and work," said Vineet Gehani, Senior Director – Personal Systems, HP India.

HP OmniBook 5: Premium Experiences for Students

The HP OmniBook 5 delivers AI-ready performance, powered by up to an Intel® Core™ 7 processor[i] with integrated NPU capabilities[ii] with up to 16 TOPS, enabling students to stay productive across academic and personal projects. Designed for life on the move, it offers up to 42 hours of local VPB (Local Video Playback) battery life[iii], an ultra-thin 11.77 mm profile, a lightweight 1.16 kg design, a flexible 180° hinge, dual full-function USB-C®[iv] ports and HP's compact 65W USB Mini GaN charger[v]. For an immersive entertainment experience, the laptop features a cinematic OLED[vi] display, 100% DCI-P3 color coverage, HP Eye Ease technology and up to 90% screen-to-body ratio. It also enables seamless collaboration through an FHD IR camera with Windows Hello facial recognition, dual microphones, Poly Studio-tuned audio[vii] and DTS:X Ultra, helping students stay connected and participate confidently in online classes, virtual meetings, and everyday conversations.

The HP OmniBook 5 combines thoughtful design with personal expression, introducing four new colour options for the first time: Smoke Silver, Starlit Blue, Peony Pink, and Soft Honeydew. Featuring a premium aluminum chassis, a tone-on-tone keyboard and refined design details, the laptop blends aesthetics with functionality, giving consumers more choice to reflect their personal style.
