Bata India Reports 7.5% Revenue Growth and 31% Rise in Profit in Q2 FY27

CHENNAI – 5 Nov, 2026 Bata India has announced its financial results for the second quarter ended September 30, 2026, reporting revenue of ₹861.8 crore, registering a growth of over 7.5% compared to ₹801.3 crore in the corresponding quarter last year. Profit after tax increased by over 31% to ₹18 crore, compared to ₹13.8 crore in Q2 FY26, supported by higher average selling prices (ASP). This marks the fourth consecutive quarter of accelerating growth for the company.

The company recorded strong growth driven by premiumisation and same-store sales growth (SSSG), along with double-digit growth in its Franchise and Industrial & Institutional (I&D) channels. Bata India now operates over 2,000 stores, including franchise outlets, and has more than 3,800 Key Retail Outlets (KROs). Inventory freshness improved to 92%, while net stock was 7% lower compared to September 30, 2025.

Sanjay S. Rao, Managing Director and CEO, Bata India, said, “We have sustained our growth momentum for the fourth consecutive quarter, supported by strong retail performance, premiumisation and double-digit growth across franchise and I&D channels. We remain focused on profitable growth through network expansion, improved product assortment, consumer engagement and operational excellence. With the festive business shifting to Q3 this year, we expect the growth momentum to continue.”
