This Festive Season, Nissan Makes CNG Mobility More Accessible

GURUGRAM – 6 Nov, 2026 This festive season, Nissan Motor India Private Limited (NMIPL) is offering families more choice for their everyday journeys by providing CNG retrofitment at no additional cost on select variants of the Magnite and GRAVITE. The limited-period offer makes the choice of CNG more accessible to families.

Under the offer, customers can receive CNG retrofitment valued at INR 74,999 on select variants of the Magnite and INR 85,999 on the GRAVITE. Government-approved retrofitment kits include a third-party warranty of 3 years/1,00,000 km, in addition to the standard product warranty.

The Nissan GRAVITE features a segment-first smart twin-cylinder CNG solution (2 x 25 litres), designed to retain its full 7-seater flexibility and everyday usability. The offer is available until 16 November 2026 on eligible non-turbo variants of the Nissan Magnite (excluding VISIA MT, VISIA EZ-SHIFT and VISIA+ MT) and eligible TEKNA variants of the Nissan GRAVITE.

The offer reflects Nissan’s focus on making practical and economical mobility more accessible to Indian families. For the Nissan GRAVITE, this idea is reflected in the launch film, which celebrates the many strands of India’s cultural fabric brought together through family and shared journeys. The film is available on Nissan India’s YouTube channel: Presenting the All-New NISSAN GRAVITE
